Leica Viva GS14
Data sheet

Easy-to-use software
The compact and powerful Leica Viva GS14 smart antenna is equipped with the intuitive SmartWorx Viva software. With clear graphics, practical menu structures, understandable terminology and simplified workflows, save time and effort on any site. SmartWorx Viva is incredibly easy to learn and use. You and your field crew will be up to speed in no time.

Infinitely bridging the field to the office
Leica Infinity imports and combines data from your GNSS, total station and level instruments for one final and accurate result. Processing has never been made easier when all your instruments work in tandem to produce precise and actionable information.

Customer care only a click away
Through Active Customer Care (ACC), a global network of experienced professionals is only a click away to expertly guide you through any problem. Eliminate delays with superior technical service, finish jobs faster with excellent consultancy support, and avoid costly site revisits with online service to send and receive data directly from the field. Control your costs with a tailored Customer Care Package, giving you peace of mind you’re covered anywhere, anytime.

- when it has to be right
Leica Viva GS14

**GNSS PERFORMANCE**

- **GNSS technology**: Leica SmartTrack Advanced constellation tracking
- **Leica SmartCheck**: Continuous check of RTK solution
- **Signal tracking**: GPS (L1, L2, L2C), Glonass (L1, L2), BeiDou (B1, B2), Galileo, QZSS1, SBAS (WAAS, EGNOS, MSAS, GAGAN)
- **Number of channels**: 120 (up to 60 satellites simultaneously on two frequencies)

**MEASUREMENT PERFORMANCE & ACCURACY**

- **Time for initialisation**: Typically 4 s
- **Real-time kinematic**: Single baseline
- **RTK**: 8 mm + 1 ppm / V 15 mm + 1 ppm
- **Post processing**: Static (phase) with long observations, Static and rapid static (phase)
- **Code differential**: GPS (DGPS) / RTCM
  - 25 cm

**COMMUNICATIONS**

- **Communication ports**: Lemo, Bluetooth®, USB and RS232 serial
- **Communication protocols**: Leica, Leica 4G, CMR, CMRP, RTCM 2.2, 2.3, 3.0, 3.1, 3.2 MSM, NMEA 0183 V 4.00 and Leica proprietary
- **Built-in data links**: 3.75 G GSM / UMTS / CDMA phone modem
  - Fully integrated, internal antenna
- **External data links**: GSM / GPRS / UMTS / CDMA and UHF / VHF modem

**GENERAL**

- **Field controller and software**: Leica SmartWorx Viva software
- **User interface**: Buttons and LEDs, Web server
  - Full status information and configuration options
- **Data recording**: Storage
  - Removable microSD card, 8 GB
  - Leica GS14 raw data and RINEX data at up to 20 Hz
- **Power management**: Internal power supply
  - Exchangeable Li-Ion battery (2.6 Ah / 7.4 V)
  - Nominal 12 V DC, range 10.5 - 28 V DC
  - 7 h receiving (Rx) data with internal radio, 5 h transmitting (Tx) data with internal radio, 6 h transmit data with internal modem
- **Weight and Dimensions**: Weight
  - 0.93 kg (GS14) / 2.90 kg standard RTK rover setup on pole
  - Diameter x Height: 190 mm x 90 mm
  - Environmental
    - Temperature: -40 to 65°C operating, -40 to 80°C storage
    - Drop: Withstands tipple over from a 2 m survey pole onto hard surfaces
    - Humidity: 100% (ISO9022-13-06 / ISO9022-12-04 / MIL STD 810G 507.5 I)
    - Vibration: Withstands strong vibration (ISO9022-36-08 / MIL STD 810G 514.6 Cat.24)
    - Functional shock: 40 g / 15 to 23 msec (MIL STD 810G 516.6 I)

1. Support of QZSS is incorporated and will be provided through future firmware upgrade.
2. Measurement precision, accuracy, reliability and time for initialisation are dependent upon various factors including number of satellites, observation time, atmospheric conditions, multipath etc. Figures quoted assume normal to favourable conditions. A full BeiDou and Galileo constellation will further increase measurement performance and accuracy.
